**Terms and Conditions**

I am an accountant or bookkeeper providing professional accounting or bookkeeping services for multiple fee-paying clients. I will utilize the not-for-resale version of any Sage Software product for my own practice and will not resell it nor give it away. Sage Software may give my contact information to a local Business Partner or Certified Consultant who, at my discretion, may provide me and/or my clients with fee-based local support for Sage Software products. As long as I remain a current member in good standing which requires an annual fee, I will receive updates and tax tables as appropriate to each software program that I have purchased. I understand that installing multiple software programs on one server and/or workstation may create conflicts between shared applications such as Peachtree by Sage and Sage FAS or various versions of Crystal Reports.

Nothing in this agreement changes the terms and conditions of the license agreements for these software programs. While a member, I have a limited revocable license to use the Sage Software Accountants Network logo as appropriate, and I will follow the usage guidelines for these logos.
